Annual Meeting **2026** - **Berlin**

8-10  
Oct  
2026

# WELCOME MESSAGE

## Dear Colleagues and Friends,

We are pleased to announce that the **EORTC-CLTG Annual Meeting 2026** will take place in Berlin, Germany, **from 8–10 October 2026**. As one of Europe's most dynamic capitals, Berlin offers an inspiring environment where scientific innovation, cultural diversity, and professional exchange come together naturally.

This year's meeting builds on the strong tradition of previous CLTG gatherings, bringing together specialists from dermatology, pathology, hematology, oncology, radiology, and imaging sciences, as well as many other professionals dedicated to understanding and treating cutaneous lymphoma. The program will combine cutting-edge research with practical clinical insights, covering the full spectrum of malignant and benign skin inflammation—from diagnostics and translational science to therapeutic advances.

A central aim of the meeting is to foster meaningful dialogue: exploring emerging research priorities, addressing current challenges in patient care, and identifying innovative solutions that can shape the future of the field. As always, the congress warmly welcomes early-career researchers and young clinicians, who contribute fresh perspectives and help drive the next generation of progress.

Berlin provides an ideal setting for this exchange. Its central location, vibrant scientific community, and rich cultural landscape create the perfect backdrop for productive discussions, networking, and collaboration across disciplines and countries.

We look forward to welcoming you to Berlin for an engaging, forward-looking, and truly memorable EORTC-CLTG Annual Meeting.

**Prof. Dr. Chalid Assaf**  
*Congress President*

# GENERAL INFORMATION

## ABOUT THE MEETING

The CLTG Annual Meeting has become the world's leading and most comprehensive forum dedicated to the intersection of skin cancer and inflammation—specifically, cutaneous lymphoma. The program will feature international experts presenting the latest findings from clinical and preclinical studies and results from recent clinical trials.

The sessions will cover cutting-edge developments in basic science, define high-priority research and development goals, address current challenges in patient care, and explore strategies to improve the diagnosis, treatment, and management of skin lymphomas and their inflammatory mimickers.

Keynote and invited speakers will provide expert overviews of emerging scientific trends that are expected to shape the future of the field. By the conclusion of the meeting, participants will be equipped with a comprehensive update on this highly specialized and evolving area of medicine.

# CONGRESS VENUE

## Colosseum Berlin

The **Colosseum Berlin** is one of the city's most historic event venues. Originally opened in 1893 as a cinema, the building today combines historic architecture with state-of-the-art event technology.

With flexible room concepts, excellent acoustics, and modern AV-equipment, the Colosseum is suitable for both large-scale events and smaller, more exclusive formats.

Thanks to its central location in Prenzlauer Berg and excellent connections to public transport, the venue is easily accessible – whether from the city center or directly from the airport.

### From Berlin Central Station (Hauptbahnhof):

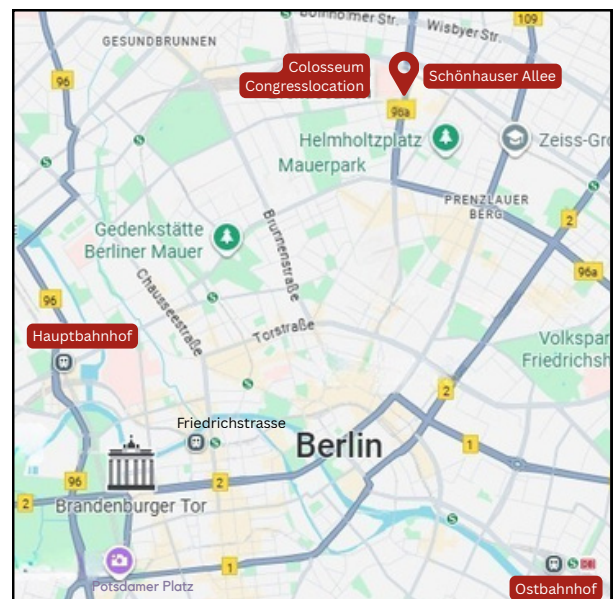

- S3, S5, S7, or S9 to Alexanderplatz
- change to U2 (direction Pankow)
- exit at Schönhauser Allee (approx. 15 min)
- Short walk to the Colosseum

### From Berlin Brandenburg Airport (BER):

By train: FEX, RE7 or RB14 to Berlin Central Station (approx. 30 min), then continue as per train.

Direct by S-Bahn: S9 (direction Spandau) to Schönhauser Allee (approx. 50 min, no transfer); Short walk to the Colosseum
